Overview

// Who We Are?

VDezine is a set of creative and tech savvy individuals, delivering web designing, development services of any complexity to clients worldwide. Having a combined experience of over 2 decades, we know the pulse of our clients.

// What We do

Our domain expertise and technological ability pan a broad spectrum. Our clientele spans verticals like education, Service Industry, Travel, Technology Services, Manufacturing, Medical, Lifestyle, Real Estate, Hospitality, Financial, Non-Profit, Ecommerce, Media.

// Our Strengths

- One-stop Internet and Graphics Solutions Vendor

- Thorough understanding of business and technology Dedicated, competent and technologically sound team

- Commitment to quality and time

// Our Business Philosophy

We at VDezine work in tandem with our clients to deliver solutions that go beyond their expectations and helping them succeed in a constantly changing world.

Our fundamental company values stem from understanding that our success is tied with success of our clients.

Our key business principles are:

- Understand clients needs
- Be transparent in all dealings
- Provide best possible solution within their budget
- Partner with the client
- Earn client's trust and confidence

Why Vdezine ?

Consistent performance and sustained growth is proof enough of our capabilities.

// Deep understanding of business principles

Our collective knowledge of business and technology helps us arrive at practical (yet aesthetic) solutions that are business result oriented.

We have the know-how to develop solutions like building-blocks that can be seamlessly integrated to expand to meet your growing needs.

// Commitment to Quality

A product which is thorough on quality is the one which can be vouched for. We know this and make sure that each of our project is adhering to detailed quality parameters in all aspects. This makes the client satisfied and help our Business grow.

// Honest and Transparent Advices

We are not here ONLY to make money. We give honest and sane advices to our clients which attract them towards us and we build long-lasting relationships. It has been a clean record of a decade where each client has at least given us 3-4 leads/refences due to our honest and transparent business dealings.

// Perfection in design principles

Our commitment to deliver quality solutions that surpasses customer expectation is a unique experience for each of them. They not only get a WOW design for their project but also a product which can be showcased for one and all.
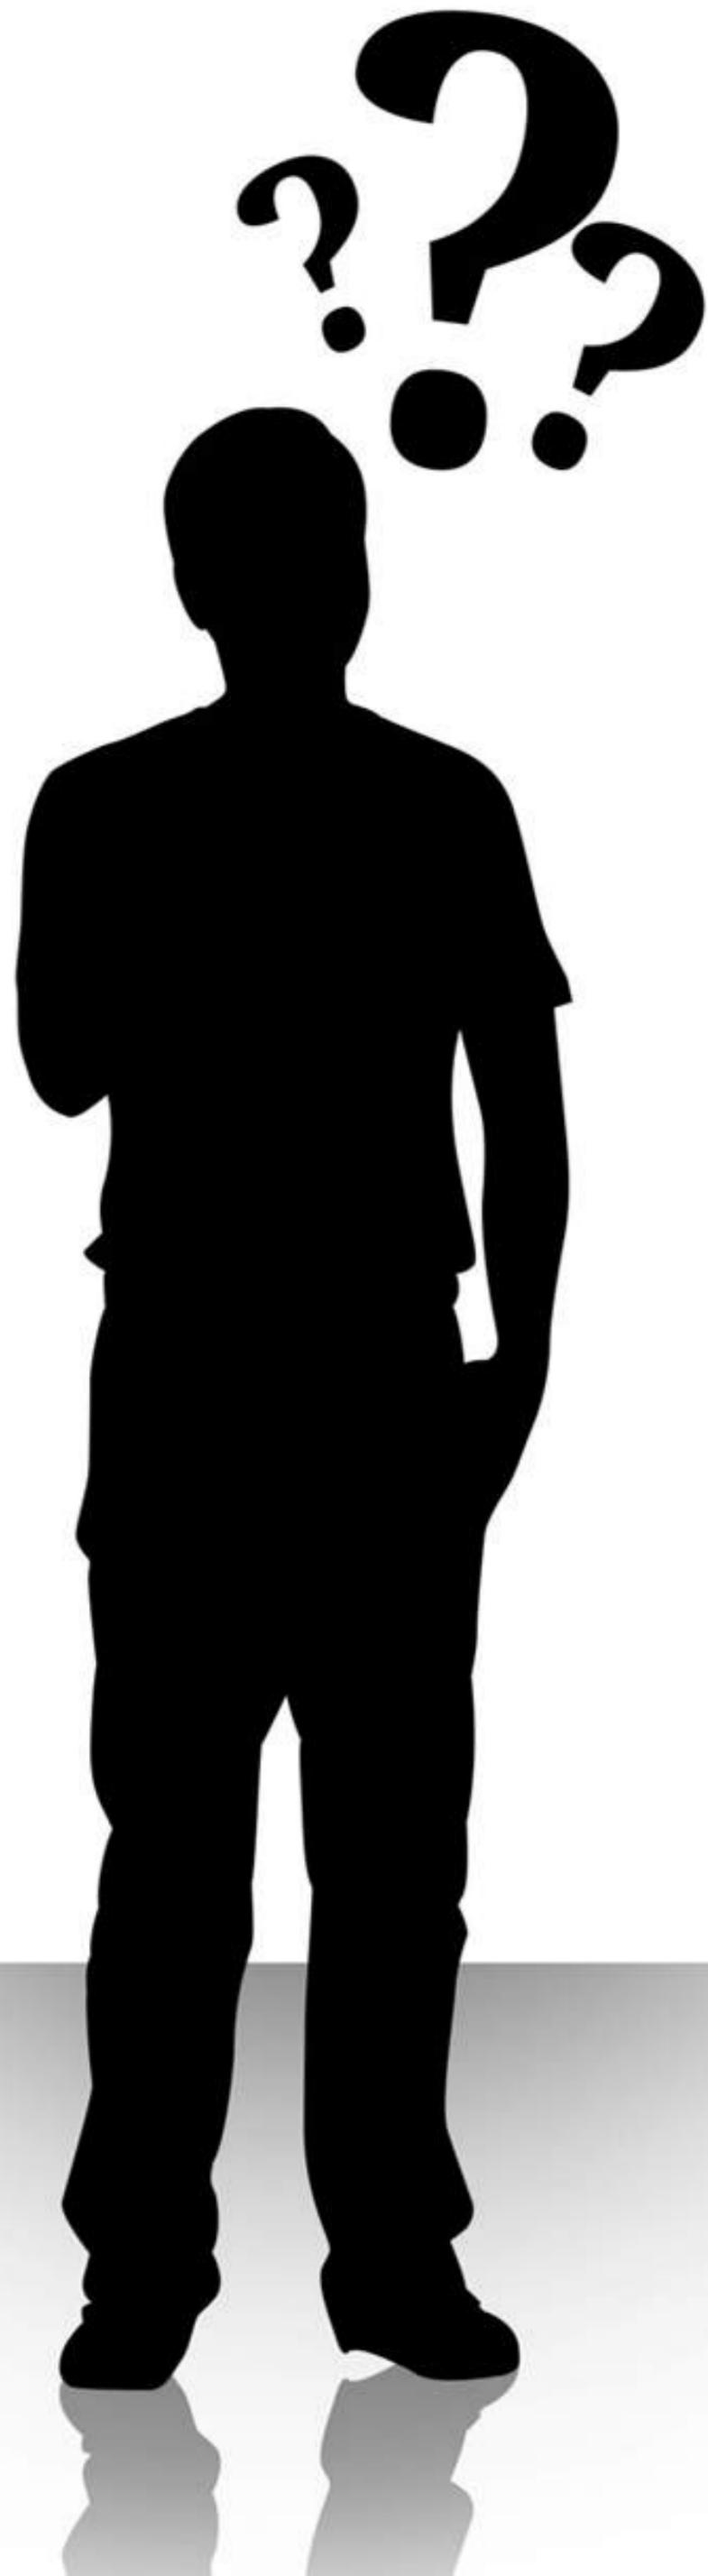

Capabilities

V Dezine delivers intuitive web solutions loaded with features that surpass customer expectations.

Our strengths come from thorough understanding of technology, perfection in design principles and ability to understand customer needs. So, our solutions deliver results and are innovative to cover future needs.

Services

Vdezine offers versatile solutions custom-built to suit your needs and fortified to meet the ever-changing business environment. Our technology and business savvy team design solutions that meet you business objectives and enrich your customer experiences.

Websites/UI Design

At Vdezine, we don't just design web pages; we communicate your ideas by our creative designs. We are keen in developing user friendly and easily navigable websites. Our professional team has immense knowledge in designing web pages which can drive traffic to your site.

Responsive Websites

Responsive Web design is the technique where the design and development should respond to the user's behavior and environment based on screen size, platform and orientation. Responsive design has become a renowned front-end Web development technique in today's world. Almost every business owner, these days wants a mobile version of their website, since the people accessing sites using mobile devices is much higher.

Mobile Websites

Do you have a website compatible to mobile devices?
If you are running an online business then it is high time to concentrate on your websites. Website compatible to mobile devices is required to drive the traffic of the mobile users. The website designed primarily for laptops and desktops cannot be used for mobile devices as the user experience and compatibility differs.

Ecommerce

Vdezine offers comprehensive e-commerce suite, customized to meet your product needs. Your customers get the advantage of secure and enhanced shopping experience, while you get the returns of smooth error-free operations. Our ecommerce solution is packed with functionalities such as: Payment Processing, Search, Multi-Level Product/Service Catalog, Integrated solution, Real-Time business reporting, Content Management etc.

Web Applications Development

Vdezine is having years of experience and has helped customers across verticals such as Healthcare, Education and Financial Services and have implemented solutions across various platforms like ASP.NET and PHP.

Services

Blogs

We do blog design and development using the best CMS available in market. If you need a customized theme design, we will create according to your requirements. Our experienced designers and developers can put together a professionally-designed blog utilizing the best available plugins and widgets to make sure your every need is met.

Online Marketing

We can help you in the entire lifecycle of lead generation to lead conversion with focus on your ROI & profitability. If you are just starting out in your digital marketing journey, we can help you to kickstart it with lead generation in rapid quick time. If you are an established digital marketer, we can help you to generate more leads at low cost to boost your ROI.

Emailers & Landing pages

Skilled designers at Vdezine create E-mail templates that carry interesting and informative facts about the business organization.

We design landing pages effectively for the purpose, where traffic is sent specifically to prompt a certain action or result.

Print & Graphics

We are committed to providing creative Graphics design and print solutions which are both cost effective and practical. We provide a full range of Print Graphics services including: Logo Designing, Brochure Design, Flyers, Business Cards et al.

Maintenance and Support

We understand the need to continually make changes and updates to your Web site. We offer website support plans at a variety of levels of service, fitting most every company's budgets and requirements. We review and identify the best strategy to update your site for best results.
